

4 DAYS. HANDS-ON. REAL SOLUTIONS. REAL RESULTS.

ADVANCED SOILS & AGRONOMY LABORATORY COURSE

ROW CROPS, PASTURE, TURF, POTATOES & ORCHARDS:
SOIL HEALTH, PLANT HEALTH, PROFIT.

BUILD BETTER SOIL.
GROW HIGHER BRIX.
INCREASE YIELD & QUALITY.
MAXIMIZE PROFITABILITY.

LIVE SOIL & PLANT LABS

Hands-on testing and analysis you can use at home.

REGENERATIVE SYSTEMS

Proven strategies to build soil health and plant resilience.

HIGH BRIX. HIGH RETURNS.

The connection between soil biology, Brix, and profitability.

ROW CROPS, PASTURE & TURF, POTATOES & ORCHARDS

Practical solutions for quality, storability, and market value.

EXPERT INSTRUCTORS

Learn from top leaders in soils, crops, biology, and agronomy.

DECEMBER 9-12, 2026

HYATT PLACE LENEXA, KANSAS

POTATOES

- Higher yields
- Better size & shape
- Improved storability
- Disease resistance
- Higher Brix & nutrition

HEALTHY SOIL HEALTHY PLANTS

- Build soil biology
- Improve water infiltration & holding
- Balance nutrients
- Increase root mass

ORCHARDS

- Stronger trees
- More blooms & fruit set
- Higher Brix
- Better color & flavor
- Increased profitability
