Meters

Product	CODE	PRICE EACH (1-11)
Ph Meter's		
Ionix pH 1 Hand Held Meter. 0-14pH 1-3 calibration, comes in carry case with Calibration Solution, displays measurement & temperature. Excellent meter for normal work	PH1C	\$135.00
Ionix pH 5 Premium Spear pH Tester. Range 0-16pH, accuracy +/- 0.1pH. Can be used directly in soil, foods, cheese, fruit, meat, jam, beverages etc. unique colour coded display. Comes in carries case with standards etc.	PH5SC	\$398.00
Bench top small portable PH meter & cable probe	SM101	\$205.00
ph Calibration Solution Kit. ph7 & ph4 200ml bottle, approx. 2 year shelf life (\$11.00 ea)		\$22.00
Horiba Laqua Twin pH Sap Meter 2point calibration range 0-14 pH	P H11	\$195.00
ConductivityMeters:		
Conductivity Waterproof Manual calibration	EC 60	\$159.00
Conductivity Calibration Solution		\$11.00
Horiba Laqua Conductivity Sap Meter Range 0–19.9mS/cm, 0–1.99S/m, Salt 0–1.1%, TDS 0-9,900 PPM	EC 11	\$195.00
Hanna Direct Probe Pocket Tester Conductivity Soil Meter. 4.5inch probe. Quick & easy to use in the field, easy to calibrate Auto Temp. Compensation. 1point calibration	HI98331	\$210-00.00
Horiba Laqua Ion Water & Sap Meters:		
Nitrate Ion No 3 Meter kit in case with crusher etc. for Plant Sap reads 100 to 9,900 PPM (for crops)	B741	\$880.00
Nitrate Ion No 3 Meter (for soil only) Reads 30 to 600 PPM	B742	\$880.00
Nitrate Ion No 3 General purpose Meter for soil & plant Sap Reads 62 to 6,200 PPM	B743	\$530.00
Spare Sensors for N0 3 Meters	Sensor 343	\$178.00
Horiba Laqua Calcium 2+ Ion Meter Range 40 – 4900 PPM	B751	\$595.00
Horiba Laqua Potassium (K+) Ion Meter range 39 – 3900 PPM	B731	\$530.00
Horiba Laqua Sodium (Na+) Ion Meter Range 23 – 2300 PPM	B722	\$530.00

Horiba Laqua Salt (NaCl) Ion Meter Measure Range 0.1 – 10% by weight	B721	\$530.00
Combination Meters, ph soil moisture & others available:		
Combination ph, Conductivity & TDS Meter (bench model)	MW 802	\$555.00
Ph & Soil Moisture Meter 3" Probe	DM15	\$130.00
Soil Moisture Meter 12" Probe. Suitable for pots & soft soils Gives indication Ph & soil moisture. Easy to use	PHSM	\$55.00
Compost & Soil Moisture Probe. 30, 50, 60 & 90cm lengths	CMP	POA
ExStik Pocket size Moisture Meter: For wood & building materials, with safety storage of replaceable pins. Easy to operate	MO 230	\$268.00
Hay, Compost & Soil & Grain Moisture Meters		
Hay Moisture & Temperature Probe. Expanded range 8% - 44% moisture, 0 to 107deg C. Large LCD digits clearly visible day & night 50cm (20") probe. Accurate through normal range of stored Alfalfa, Timothy & Clover hay.	2188	\$598.00
Agreto model HFM 11 Hay Moisture Meter. Made in Austria, rugged construction, 50cm SS probe moisture range 9-50% Temperature range -10 to 100 c, resolution 0.1% accuracy 0.8% ongoing display of readings during measurement procedure for rapid determination at different locations in the bale, hold, average & counting function. Automatic calibration, 5year warranty on parts and workmanship. Delivery meter manual & 9volt battery. 3Ft. Model (90cm) same details as above	HMF 11 HMF 11 3	\$634.00 \$703.00
Agreto model PFM 11 Baler mounted moisture meter. For hay & straw. Robust construction high quality materials SS mounting bracket, splash proof display. Backlit 13mm high digits resolution 0.1%, accuracy 0.8%. Measuring range 9 – 50%*. Comes with display unit mounting bracket, sensor plate 4 SS screws & mounting material, 12m sensor cable with rugged waterproof plug, 2m power cable, fuse & manual.	PFM 11	\$598.00
Compost & Soil Moisture Meter. Made in USA, various lengths available 30, 46, 60, 76, 91cm & 1.22mt	CSMM	POA
MP Kit 460 Soil or Sand Moisture Probe Meter. This is extremely accurate (Equal to weighing & drying in an oven) for doing soil moisture, is portable & can be taken from site to site, reads down to 6 inches (150mm) or by using the extension handle can measure down to 2ft (600mm). Meter can download to a computer etc. A very useful rugged unit, records as you go, comes complete with meter probe, extension handle & carry case.	MP Kit 460	\$1,988.00
Agreto Grain Moisture Meter	GFM Plus	\$530.00

Aquaterr Soil Probe for Soil Moisture, EC & temperature all in one probe. A rugged tool for both the Agriculture and Turf Industries, field tested rock solid – stable electronics. Features stainless & aluminium body, 30inch (76cm) probe, weather proof steel enclosure, easy to read digital read out screen, colour coded scale indicates range for different soils, clay, loam & sand. For deep measurements where conditions are very dry, hard or compacted use soil sampling probe auger to make the hole first then insert the probe. The EC350 is ideal for those who want a portable easy to use versatile meter that does 3 things in one, can save a lot of time and effort, can be take from site to site for measurements in seconds	EC 350	\$1699.00
Aquaterr Model M-350 Moisture only probe meter, these meters are fully portable so you are not limited to one or a few spots you go out and do multiple spots you take it anywhere with you in your vehicle and do a reading, the other advantage is you get to look at your crop etc. at the same time, rugged construction. The Aquaterr Company has been around since approx. 1968, these meters have stood the test of time. Accuracy +/- 1.5% Probe length 30" (76cm)	M-350	\$1398.00
Aquaterr T 350 Moisture & Temperature Meter. Same meter as the EC 350 but reads moisture & temperature only	T 350	\$1572.00
Aquaterr Model EC 350-G. Designed & ideal for pots and green house work, only difference between this and the EC 350 is it is just a hand held unit with a shorter probe. Will do depths from 4" to 12" (10 – 30cm), quick and simple to use no mucking around. Use anywhere anytime, rugged construction. Accuracy +/- 1.5%	EC-350-G	\$1538.00
Aquaterr T-350.Moisture/Temperature meter, same as the EC 350 with the same great features except it does Moisture & Temperature only. 2 Year warranty against parts & workmanship	T-350	\$1572.00
ORP Meters:		
ORP Meter (Redox)	MW500	\$310.00
ORP Calibration Solution		\$13.50
PNA Meter & Calibration Solution	PNA- SOL	\$226.40
Brix Meters:		
Auto Temp Refractometer (Brix Meter) & A1 Sap Press Test Kit	0 – 32%	\$180.00
Auto Temp Refractometer (Brix Meter) only.	0 – 32%	\$160.00
Brix meter for colostrum (horses, cattle etc.)	0 – 32%	\$160.00
Palm Size Digital Brix Meter 0-53%. This is a high quality trouble free simple to use meter	PAL	\$625.00
Other Brix Meters Refractometers various ranges	VR	P.O.A
Hand Held Refractometer (Brix Meter)	28 – 62%	\$210.00
Atago Acid Brix Ratio Meter Suitable for things like Citrus, Tomatoes, Grapefruit, Pineapples, Kiwi Fruit, Apples, Mango or Stone Fruit. This unit is suitable for converting the total acidity in a sample into the citric acid concentration.	ABR	P.O.A.

Brix Master – Use it to ensure that your grapes are picked at the Brix level you want. Your workers can monitor while picking. Cheap, simple, robust, easy to use.		\$48.00
Salinity Refractometer	0 – 28%	\$210.00
Hydraulic Plant Sap Press & Extractor for hard to press leaf e.g.: Olive, Macadamia, Cherry Leaf etc. Or anywhere you need Sap Quantity	HSAP	\$398.00
Hand Press for Plant Sap Testing	A1	\$22.00
Modified Vice Grips for Plant Sap Extraction	MVG	\$75.00
Infra-Red Sensors:		
Mini Infra-Red Sensors for reading plant stress * Other models available	F62	\$259.00
Infra Red & Contact Thermometer: Will do min/max differences. Can be used with Compost Temp. Probe instead of having second meter	561	\$380.00
At Leaf Chlorophyll Meter: Test the leaf for chlorophyll with this unit, instant results in the field. Estimate N requirements in the field as well. Simple to use push 1 button for result, holds up to 5,000 readings. AT Leaf Soft PRO soft ware licence Contact USB Dongle and info sheet, for CHL Plus	CHL STD	\$473.00 \$465.00
Chlorophyll USB meter with USB cable, batteries and user manual. Determine Chlorophyll and Nitrogen	CHL Plus	\$ 610.00
Thermometers & Temperature Probes & Diskloggers:		
Food Safety Dual Thermometer. Infra Red & Contact Probe all in one handy unit slim neat easy to use & carry in pocket Range infra red -50° 250° Probe - 50° to 350° can scan many readings at once	TCT303	\$190.00
Thermometer 4inch Probe (no cable)	TH310	\$74.00
Thermometer 1meter cable 6inch probe	TH300	\$68.00
Minimum Maximum Wall Thermometer	LT	\$24.50
Wall Model Temperature Humidity Meter	AZHT02	\$86.00
Long Temperature Probes for Compost etc (T Bar Handle complete with meter). Any length made to order POA on length's other than 4 feet	3ft 4ft	\$490.00 \$499.00
Data Logging Meter for above	C300-DLM	\$557.00
18" inch Probes ideal for hay, reads temp. only (T Bar handle complete with meter).	18"	\$424.00
Compost Dial Thermometers – 20" (500mm), 3 Feet (900mm), 4ft model (1200mm) Guard for Dial Thermometers 18" {46 CM}	REO GARD Reo	P O A \$60.00 POA
Humidity Temperature Meter with probe and lead. Can also be used with data loggers, comes in a case.	CE 313	\$355.00

Digital Readout Logger Disk Log Temperature/RH Logging made easy reads- 40 to 85°C accuracy ±1°C stores 2048 Readings Unique ID number logger. Complete 1 disk & PC software	DISL EC	\$249.00 \$277.00
Digital Min/Max Memory Wall Thermometer big No's2 meter lead & sensor. Variations can be checked with Min/Max & reset controls. Great for fridges, food cabinets etc.	CH-ZMT09	\$86.00
Light Meters:		
Lux Light Meter. 3 ranges in 1 meter. 0 - 1, 999 lux, 2, 000 to 19 999 lux, 20 000 - 50 000 lux.	LUX	\$169.00
Pasture Measurement Meter:		
Filips Folding Plate Pasture Meter ideal for feed budgeting when Rotational Grazing, measures the average height of the pasture allowing for density. A fast, useful tool no mucking around cutting and weighing	FPM	P.O.A.
Digital models of the above also available does all the calculating for you	FPMD	P.O.A.
Penetrometers Soil & Fruit Model's:		
Penetrometers Soil Compaction Testing. 1 – 1400psi	PCS	\$385.00
Fruit Penetrometers and Accessories 4Models: 0-1Kg (0-2.2 lb) Strawberries etc. 0-5Kg (0-12lb) Soft Fruit 0-13Kg (0-29lb) Apples, Pears, Peaches, etc 0-20Kg (0-44lb) Avocado's	FPA 53207 53203 53200 53201	\$320.00
Small Diameter special plunger set 1, 1.5, 2, 2.5 & 3mm for Cherries etc. Special Star plunger for strawberries	SPS SSPS	POA \$33.00
Digital Fruit Penetrometer		POA
Modified stand for fruit penetrometers, suits standard hand held or digital. Easy & precise to use, lightweight & fully portable	MDS	P O A
Digital Fruit Hardness Tester (Non-Destructive) 0 to 100 shore, Digital index plunger 0.25cm2. Advantages are not destructive to the fruit, Maturation can be followed on the plant in the pack house, store etc.	53215TP F 53215TTAV	\$785.00

Fruit & Vegetable Measuring Devices.

Citrus Produce Callipers 0 – 150mm, 0 – 6" A quick reference for in the Field or pack house	CPC	\$50.00
Universal Fruit Calliper Chromed. Check the growth rate of your fruit. Measures fruit size from 25 to 95mm	UFC	\$153.00
Fruit sizing rings. 13 sizes Aluminium pocket calliper from 30 to 90 mm with 5mm steps.	53302	\$99.00
Sizing Rings Sets. 7 Sizes for Limes, Lemons & Passion Fruit, 45,48,50,55,60,65 & 70mm in 5ml steps plus includes the 48mm	53340	\$65.00
Fruit sizing rings. 9 sizes Aluminium pocket calliper 50 to 90 mm with 5mm steps	53313	\$95.00
Sizing Rings in individual size, according to your requirements also available. Individual price		POA

All in 1 Pocket sizer rings 30 holes form 18-32mm (steps by 1mm) and from 30 to 100mm in 5mm steps	All in one 53337	\$139.00
Peach calliper. 6 sizes: 16/17.5/19/21/23/25 Aluminium.	53308	\$92.00
Potato calliper. 11 squared sizes 30 to 50 mm in 5mm steps aluminium	53301	\$180.00
Cherry calliper. 6 sizes 20 to 30mm in 2mm steps	53319	\$9.00
Banana calliper. From 7/8" to 2" in 1/32" steps	53328	\$210.00
Plastic Universal calliper. 20 to 100mm and 4/5" to 4"	53321	\$88.00
Potato Hydrometer. Bulk average type potato. Available in 3 models. Standard Type, 14 -23% & 18-27% Dry matter	D4500 D4501 D4502	POA POA POA
Carrot sizing rings. 8 sizes from 15 to 50mm in 5mm steps. In stainless steel.	CSR	\$85.00
Tomato Sizing Rings: 10 sizes 20, 25, 30, 35, 40, 47, 57, 67, 82, 102mm	53341	\$70.00
SS Apple Linear Sizer: Dia. From 55 to 90mm in 5mm steps	53311	\$76.00
Small Fruit Sizing Ring Set. 18 – 32mm in 1mm steps	53318	\$69.00
Table Grape & Small Fruit Sizer. 15-28mm 1ml steps	53315	P.O.A.
Fruit Sizing Rings. From 30 – 120mm in 5mm steps	MRS	\$175.00
Fruit Sizing Rings. Big Ring Set 95-120mm in 5ml steps	BRS	\$105.00
Fruit Sizing Rings. Full Set. 18 – 32mm in 1mm steps & 30 – 120mm in 5mm steps	FRS	\$189.00
Orange Sizing Rings 11 sizes 60 to 90mm	53338	\$80.00
Clemintine Sizing Rings 8 rings from 43 to 76mm Dia.	53339	POA
Lemon Sizing Rings 7 sizes 48 – 79mm Dia.	53340	\$69.00
Fruit Vernier. Accurately measures any fruit, large easy to read markings 0-15cm (0-6")	BPV	\$49.00
Small Fruit Sizing ring steel card 18 to 32 MM in 1 ml steps	53336	\$69-00

Dissolved Oxygen, Chlorine & CO2 Meter's etc.

Dissolved Oxygen Meter Complete with carry case.	SM600 DO	\$499.00
Spare Membrane for SM600	MDO	\$20.00
eXact Plus Chlorine Photometer. For sanitiser/Oxidiser testing, ideal for testing process water & for testing water in Renal Dialysis. Kit contains 1 eXact Photometer & 1 user manual. Note: Reagents need to be ordered seperatly.	S486696	\$539.00
Chlorine Meter Martini Free and total Chlorine	MI 404	\$320.00
CO2 Meter & Probes for Compost etc. Complete with Long Stainless Steel Probe. Simple to use.		\$1050.00
Gas Pump & Detector Tubes for other gases available, easy to use		P.O.A.
Wind Meters:		
Kestrel Wind Meter, wind only	K1000	\$199.00
Kestrel Pocket Weather Station – Wind Speed, temperature, dew point etc. Ideal for monitoring Weather	K3000	\$396-00

All prices include GST.

Effective from December 2018 E. & O.E.

before spraying, fire fighting etc. Many uses in one Meter		
Kestrel 3500 Delta T. Specifically for determining acceptable spray conditions in the agricultural industry, does the calculations for you.	Delta T	P O A
Kestrel 5500 Pocket Weather Tracker. Includes built in digital compass. True North & magnetic North. Calculates crosswind, head/tail wind etc.	K5500	\$770.00
Extend the functionality of your Kestrel meter with a portable vane mount. Total weight 227gms. Fits in pouch 5 x 15.25 cm's. Pair the 4500 with the Kestrel vane mount & have a data logging station set up in seconds, rotates in slight breeze.	0791	\$130.00
Portable tripod for above.	0807	\$62.00
Compasses:		
Ranger 3 Compass		\$45.00
Soil Samplers & Water Infiltration:		
Soil Sampler Stainless Steel Cut Out Section (600 mm) 26 inch.	COS	\$96.00
Extra long Soil Samplers. 1 meter 39" with cut out section.	LCOS	\$100.00
Soil Auger Type. (DUTCH) Type. Soil sampler digs a hole approx. 2 3/4" (7cm) dia. unit can be used down to a depth of 90cm (3 feet). Great for clay soil, not suitable for sand or loose dry soil, unit screws apart for transport	SADS	\$420.00
Larger Diameter Heavy Duty Soil Samplers made to order 1 1/4", 1 1/2", 1 3/4 or 2"	LDSS	POA
Stainless Steel Water Infiltration Tubes 4" Dia 12" Long with teeth, great for checking how fast your soil absorbs water and to check soil improvement	WIFT	\$140.00
Paramagnetism: Soil Paramagnetism Testing Service Also available.	One Test Two Plus	\$14.00 \$7.00ea
Solvita CO2 Respiration test for soil, compost & Grain		
Solvita CO2 Soil Test: The simple way to test your soil for CO2 & Nitrogen Release. Please note kit contains 12 tests & 6 jars. Results in 24 Hrs. No waiting for lab results	S2361	P O A
Solvita Soil CO2 Refill Kit for above	S2362	\$252.00
Solvita Compost CO2 Kit. Kit contains 6 jars of 12 test strips – 6 Ammonia & 6 Co2. Gives a result in 4 hrs. Simple to use.	S2261	P O A
Solvita Compost CO2 Refill Kit for above	S2262	\$216.00
Solvita Garden Care Kit. Contains 3 tests for compost and 3 tests for soil and instructions.	SGK	POA
* NOTE: For best performance Solvita kits should be kept in cool cupboard test strips can be kept in fridge this prolongs life of strips.	N/A	N/A
NPK Test Kit: Test your soil for NPK on the spot enough for 25 tests	NPK	\$139.00
MicroBiometer: Soil Health Kit 10 tests in a kit , the palm of	MBSH	\$298.00

All prices include GST.

Effective from December 2018 E. & O.E.

<p>your hand, how alive is your soil? This hand kit allows you to do a reliable Bio Mass test of the Total Micro Biology in your soil compost or compost tea , . The patented Micro Biometer test takes only approx. 10 -15 minutes to perform, yet accuracy is on a par with lab tests at a fraction of the cost, plus instant result's. Just have to scan it with your smart phone app and that's it, all done. Refill kits for above also available</p>	RMBS	\$221.00
--	------	----------

Meter Kits in Carry Case Combination

Kit 1: Example

Brix Meter, pH Meter, EC Meter, Thermometer 4 " probe, Mini Temperature Infra-Red Sensor for Plant Stress, A1 Sap Press for Plant Sap, Plus other meters of your choice

Note: Kits can be varied to suit individual requirements.

Terms: Cheque, COD, Cash with Order, Credit Card (Mastercard or Visa).

Microscopes

All Microscopes Listed Represent Excellent Value and Quality for Money:

E 5 Series Microscopes:

The E 5 Series Microscopes are available in , Binocular and Trinocular. The newly designed Microscope offers excellent optical & mechanical properties for an economical price . Ideal for Education, Veterinary, and universities teaching Laboratories. Mount a HDMI or USB Camera for teaching in schools or documentation.

MODEL	DESCRIPTION	PRICE
M-E 5-B	Monocular 360 deg, rotatable, with dual layer mechanical stage and WF10x eyepiece. Achromat objectives 4x,10x, 40x, 100x (oil) illumination LED	\$715.00
		NA
M-E5R – B	Binocular 360 deg, rotatable, with dual layer mechanical stage and WF10x eyepieces. Achromat objectives 4x, 10x, 40x, 100x (oil) illumination LED	POA
E5– T	As above with Trinocular (photo tube) 50/50 with LED illumination NOTE: 40 and 100x objectives are sprung loaded	\$752.00
TS-TCAM-3.0	Tuscan Camera 3.0 & Software for above	POA
TS-TCAM-5.0	Tuscan Camera 5.0 & Software for above	\$618.00

Series E5 s

E 5 T Trinocular Microscope with Achromat Objectives.

Trinocular Head inclined at 30 deg Beam splitter 50/50

Eyepieces WF10x(18)

Achromat or Plan Achromat Objectives A4x, A10x, A40x, A100x(oil)

Nosepiece reversed 4 positions.

Co-Axial course and fine focusing knobs

Co-Axial Mechanical Stage with specimen holder

Condenser Abbe 1.25 with iris diaphragm with rack & pinion adjustment.

Illumination variable LED with Lithium battery (approx 8hrs) Blue filter, built in with mains power pack charger. This microscope camera system can be used in the field with laptop as LED illumination is powered by inbuilt battery and camera is powered by USB from laptop.

CD'S, DVD's, USB Audio Sticks & Tapes Available

PRODUCT	PRICE
Genetic Engineering by Ronnie Cummins (CD)	\$5.50
Soil and Animal Nutrition and Health by Dan Skow (CD)	\$5.50
Reams 101 Adding Sophistication to Your Fertiliser & Foliar Plan. Dan Skow D.V.M. 2 CD set	\$18.00
Sprouting of Grain for Livestock by Jerry Brunneti (CD)	\$5.50
Industry & Government by Charles Walters (CD)	\$5.50
Microbes, Compost & Compost Teas (2 CD's) by Elaine Ingham	\$11.00
Nutrition (2 CD's) by Sally Fallon	\$11.00
Composting (2 CD's) by Edwin Blosser	\$11.00
Medical Things (1 X DVD) by Arden Anderson <i>(128minute talk on link between soil health, medicine, and GMO's)</i>	\$24.00
Soils & Agronomy, A DVD school for the Biological Farmer, Dr Arden Anderson. D.O, PhD. 14 DVD's & Mp3, complete with work book, an entire advanced soils seminar in a box.	\$278.00
3 day Soil and Agronomy course DVD & Work book with Dr Arden Andersen , recorded Sept 2017 at Maryborough Qld 6 DVD set	P.O.A.

Radionics in Agriculture DVD instruction in utilizing a radionic scanner in agriculture with Arden Andersen D.O. PhD. <i>11 DVD's, MP3 & work book. This set covers a full 4day course in detail.</i>	\$278.00
Adding Energy to The Farm Plan. Arden Andersen D.O. PhD. <i>2 Cd set</i>	\$20.00
Achieving Top Performance from Your Soil, Your Farms. Arden Andersen D.O. PhD. <i>2 CD set</i>	\$20.00
Ehrenfried Pfeiffer. Himself. <i>A rare collection of CD's in Dr Pfeiffer's own voice, teaching timeless lessons of eco-farming/natural health.8 Audio CD's & MP3 in binder</i>	\$55.00
Cancer, Nutrition & Healing A Personal Odyssey by Jerry Brunetti <i>(a message from a man who was told if he did not have chemotherapy for Lymphoma he would be dead in 6 months – 5 years later he is still alive)</i> DVD or Video	\$32.00
Restoration Agriculture 135 Minutes DVD Mark Sheppard takes viewers on a video tour of his Wisconsin farm & conducts a full scale introductory presentation on his unique Permaculture, silva culture, agro forestry, eco farming & modified keyline system	.\$ 40.00
HISTORIC VIDEO: "The other side of the fence" All about the link with soil, animal & human health by professor William A Albrecht <i>(is preserved & presented for future generation's 1950 era film, introductory & closing remarks by Acres U.S.A. founder Charles Walters. A must watch video, also available in DVD)</i>	\$35.00
Holistic Veterinary Care (DVD) by Jerry Brunetti & Hubert J. Karreman VMD.	\$35.00
The Keys to Herd Health (DVD) by Jerry Brunetti, <i>an excellent look at all aspects of Herd Health</i>	\$35.00
Hands on Agronomy (DVD) workshop. Feeding and balancing your soil. By Neil Kinsey.	\$48.00
Prioritizing Fertiliser Needs with Cost Benefits & Your Soil in Mind. Neal Kinsey. <i>3 CD set.</i>	POA
The Dark Side Of Glyphosate & Glyphosate Tolerant Crops. Don Huber. <i>2 CD set</i>	\$20.00
Pasture Cropping & No Kill Cropping (DVD) brought to you The Lake Cowral Foundation & The Advanced Cropping Company. <i>(This DVD features an introduction to pasture cropping and how you can improve the carbon in your soil by this method)</i>	NA
Holistic Management by Allan Savoury with Jody Butterfield. <i>Now this complete book available on CD narrated by Paul Griffiths. 15 CD set, play them while you drive</i>	\$100.00
Biblical Instructions and Applications for Modern Day Food and Agricultural Production DVD. Neal Kinsey. <i>Running time approx. 2hrs 52 mins. Please note this is also available on USB audio stick, great for playing in the car, truck or tractor.</i>	\$35.00 \$35.00

The Albrecht/Kinsey System of Soil Fertility. 3 Day introductory course with Neal Kinsey 12DVD set recorded in Toowoomba QLD July 2014	\$350.00
--	----------

Books Available: Agriculture & Viticulture

PRODUCT	PRICE
Non Toxic Farming Handbook by Philip Wheeler & Ronald Ward (<i>a first read for beginners</i>)	\$48.00
Science in Agriculture by Arden Anderson (<i>both farmer and professional will benefit from this book</i>)	\$55.00
The Anatomy of Life & Energy by Arden Anderson (<i>learn to tap and use life-force energy, Updated edition 2014</i>)	\$36.00
Real Medicine Real Health by Arden Anderson (<i>gives real options for people and health</i>)	\$42.00
Food Plague by Dr. Arden Andersen, D.O., M.S.P.H., Ph.D <i>Could our daily bread be our most life threatening exposure, this book examines the difference between GMO's and what is proven to be causing much ill health in humans, cancer, kidneys, environmental pollution and the alternatives, plus more.</i>	\$38.00
Minerals for the Genetic Code. An exposition & analysis of the Dr Olbree Standard Genetic Periodic chart & Biological connection. By Charles Walters. (<i>A cutting-edge book on chemical & biological aspects of minerals & subatomic particles in life</i>)	\$45.00
Mainline Farming for Century 21 by Dan Skows & Charles Walters (<i>practical advice</i>)	\$44.00
Eco-Farm by Charles Walters & C.J. Tenzau (<i>a book for everyone in eco-agriculture</i>)	\$55.00
Hands On Agronomy by Neil Kinsey (<i>first rate science brings organiculture & conventional farming together</i>)	\$55.00
Weed Control Without Poisons by Charles Walters (<i>you'll never think the same again</i>)	\$45.00
When weeds Talk by Jan McCaman (<i>very enlightening</i>) explains what nutrients are likely to be missing in the soil & weed control lives in fertility management in the soil.	\$58.00
The Biological Farmer by Gary Zimmer (<i>knows how to make responsible farming work</i>)	\$48.00
Advancing Biological Farming by Gary Zimmer. <i>This book offers invaluable support for organic growers as well as conventional farmers who would like to reduce chemical inputs.</i>	\$45.00
A Biodynamic Farm by Hugh Lovell (<i>one of the best biodynamic books available</i>)	\$38.00
Bio Dynamic Pasture Management by Peter Bacchus. <i>Peter shares from his lifetime of experience, Learn The Fundamentals of Organic pasture management, how Biodynamic works, use & timing of Biodynamic preparations, Ashing of weeds, pests and more</i>	\$39.00
Grass by Charles Walters (<i>Exploring the miracle of Grass Pastures and Grassland Farming and what is the most important plant in the world</i>)	\$32.00
Albrecht Papers Volume 1 by William A. Albrecht, edited by Charles Walters <i>Foundation Concepts (This collection should be in everyone's library)</i>	\$59.00
Albrecht Papers Volume 2. Soil fertility & animal health	\$48.00
Albrecht Papers Volume 3 Albrecht's hidden sessions	\$56.00

All prices include GST.

Effective from December 2018 E. & O.E.

Albrecht Papers Volume 4 Albrecht's enduring vision	\$54.00
Albrecht Papers Volume 5 The Calcium Connection	\$54.00
Albrecht Papers Volume 6. Albrecht on Patures	\$48.00
Albrecht Papers Volume 7 Albrecht on Soil balancing	\$48.00
Albrecht Papers Volume 8, <i>Soil fertility, human health & animal health. Explains the logical connection between Soil, Animal & Human health & the need for restoring health to our soils & all living things.</i>	\$42.00
Nutrition Rules, Guidelines from Master Consultants. By Graham Sait. 22 Inspiring interviews which could change the way you farm	\$35.00
The Art of Balancing Soil Nutrients by William "Crop Doc" McKibben <i>A practical guide to interpreting Soil Test & when to foliar feed vs. Broadcast nutrients</i>	\$54.00
Bread from Stone by Julius Hensel (<i>great book on rock dust</i>)	\$42.00
Enlivened Rock Powders by Harvey Lisle (<i>using rock dust as fertiliser</i>)	\$44.00
Nourishment Home Grown by Dr A. F. Beddoe (<i>Dr Carey Ream's secrets for growing the most nutritious & life giving food in your own home garden</i>)	\$60.00
The Intelligent Farmer by Dr. A. F. Beddoe (<i>An introduction to what Dr Carey Reams Biologic Ionization principles are all about</i>)	\$16.00
Agriculture In Transition by Donald Schriefer	\$36.00
Biological Ionization as applied to Farming & Soil Management by Dr. A F Beddoe (<i>Principles and Techniques of Dr Carey Reams</i>)	P.O.A.
From The Soil Up by Donald Schriefer (<i>helps you design your own fertility programme</i>)	\$45.00
The Farmer Wants to Know About PH & Energy by Dr. Dan Skow	\$16.00
How to Grow Great Alfalfa by Dr. Harold Willis <i>Interesting reading</i>	\$16.00
How to Grow Great Corn by Dr. Harold Willis <i>Interesting reading</i>	\$16.00
How to grow great Soya Beans by Dr Harold Willis	\$16.00
Soil, Grass and Cancer by Andrea Voisin <i>The link between human and animal health – mineral balance</i>	N/A
How Soils Work by Paul Syltie PHD. <i>A study into the God – Plane of Soils and Crops. An excellent book for anyone interested in how soil or plants, or mineral and biology work in soil. Lots of black and white drawings to highlight what the author is talking about & gives you a greater understanding of your soil</i>	\$45.00
Agriculture the Only Right Approach by P.H. Ainsworth. <i>Science says there is a difference. Great information including facts and figures, this a great book worth the read</i>	\$44.00
Foundations of Natural Farming by Harold Willis PHD. <i>Understanding core concepts of ecological agriculture.</i>	\$45.00
Healthy Crops – A new Agricultural Revolution by Francis Chaboussou <i>A reminder that there is alternatives to the chemical treadmill</i>	\$45.00
Small Farms are Real Farms By John Ikerd <i>Sustaining people through Agriculture small farms have been ridiculed and dismissed however nothing could be further from the truth, discover the complexity of the small farm although this book is set in the US it is relevant here in Aussie or any where for that matter</i>	\$29-00

You Can Farm by Joel Salatin. <i>The entrepreneurs guide to start and succeed in a farming enterprise</i>	\$60.00
Ag Meters & their Applications by David von Pein <i>Basic info on the meter used updated 9-2-18</i>	20.00
Rate Chart for Hand Spray <i>Good for use with Brix meter for foliar work, etc</i>	\$9.00
Fertility Farming by Newman Turner. <i>Explores an approach to minimal use of the plough chemicals fertilisers and pesticides & emphasises soil fertility via crop rotation composting, cover cropping and manure application</i>	\$30.00
Fertility Pastures by Newman Turner <i>Details his methods of intensive pasture based production he developed a system of herbal ley mixtures & chapters on year round grazing cultivating seedling & management etc including poultry and pigs as well as cattle</i>	\$30.00
The Grape Grower by Lon Rombough. <i>A guide to organic viticulture covers all aspects of starting and growing grapes easy reading</i>	\$60.00
Back from the Brink by Peter Andrews. <i>A book that should be read by everyone, man, woman and child. Earn about how to fix our environmental problems for Australia and much of the World. A must read book.</i>	\$35.00
Beyond the Brink by Peter Andrews. <i>The sequel to Back from the Brink for those who genuinely care and want to do something about our environment. Our Australian landscape is dying – it can be saved simply. A must read book.</i>	\$35.00
Ask the Plant by Charles Walters. <i>Esper K.Chandler. Based on the agronomy of Esper K.Chandler offers farmers and growers a better way by asking and observing what the plant and the soil really needs, with a mass of info every farmer and agronomist be they organic or conventional should read it.</i>	\$55.00
Visual Soil Assessment [Field Guide] by Graham Sheperd <i>A practical field guide to doing visual soil assessment with complete instructions on how to do it. While this book was is set in New Zealand it can be applied to Australian soils. A quick & easy way for any layman or professional to evaluate soil anywhere. Has excellent colour photographs & details.</i>	\$95.00
The Ideal Soil by Michael Astera. <i>In this book, Michael brings together Reams & Albrect methods, now expanded and updated 2014 edition with extra 40 pages</i>	\$59.00
Water for Every Farm. Yeomans Keyline Plan. Compiled, updated & edited by Ken B Yeomans. <i>From the work & writings of P.A. Yeoman</i>	\$55.00
Mineral Nutrition of Higher Planst by Horst Marshner. <i>Used by top consultants all over the world, covers all nutrients, this long-awaited reprint is a fantastic reference guide. In hard cover, 651 pages of info & reference guides.</i>	\$165.00
Mineral Nutrition & Plant Disease by Don Huber. <i>Hard cover 278 pages. Covers the relationship of Mineral Elements with chapters on Chemistry of Plant Nutrients in soil & remaining chapters on N, P, K, Ca, Mg, Fe, Mn, etc. `1</i>	\$232.00
The Farm as Ecosystem by Jerry Brunetti. <i>Tapping natures reservoir of biology, geology, diversity. Nature is complex and infinite it is wisdom. To be truly successful farmers must learn the many steps of natures intricate dance</i>	\$54.00
Weeds & What They Tell Us by Ehrenfried Pfeiffer. <i>This little book covers much of what we need to know about types of plants known as weeds, how they grow and what they can tell us about soil health etc. First written in the 50's it's a great overview of the subject</i>	\$25.00
Altered Genes Twisted Truth by Steven M Druker. <i>One of the most important books of the last 50 years, everyone should read it. How the Venture to Genetically Engineer Our Food Has Subverted Science, Corrupted Government and</i>	\$39.50

All prices include GST.

Effective from December 2018 E. & O.E.

<i>systematically deceived us, the public. 511 pages</i>	
Secrets of Fertile Soil by Erhard Henning. <i>This book provides a highly practical window into the role of humus, plant roots, compost & rock dust, the depletion of our loss of humus in the soil. Addresses all components of soil micro-organisms, microbes, soil nutrients & minerals plus explores natural fertilisation techniques</i>	\$44.00
Healthy Soils Sick Soils by Margareth Sekera translated by Paul Lehmann. <i>This book is very educational for the farmer lay person or whoever that wants to educate themselves on understanding the Nature of Humus & How it functions in farming systems, formerly only available in German now in English</i>	\$32.00

Organic

Organic No-Till Farming by Jeff Moyer. <i>On Crops, Soil & Equipment, although the research was done in the US it was done through the Rodale Institute across a wide variety of areas & soil types. Great for people who refine their practises both Organic & Conventional.</i>	\$40.00
Organic Gardener Handbook of Natural Insect & Disease Control	\$55.00
SOWING SEEDS IN THE DESSERT by Masanobu Fukuoka , natural farming, ,global restoration of the worlds desserts and ultimate food security , provides a deep understanding of human beings and nature	\$28.00
Organic Small Farming by Hugh Corley. <i>The exciting story of scientifically controlled methods used on Pucketty Farm.</i>	\$35.00
Agriculture The Only Right Approach by P.H. Hainsworth. <i>Science says there is a difference. A book worth reading.</i>	\$46.00
Building Soils Naturally by Phil Navata. <i>Innovative methods for organic gardeners, outlines proven sustainable methods for growing healthy foods.</i>	\$45.00
The Organic Method Primer Update Special Edition by Bargyla & Gylver Rateaver. <i>A practical explanation for the beginner and the experienced.</i>	\$90.00
Secrets of the Soil by Peter Tompkins & Christopher Bird. <i>New solutions for restoring our planet.</i>	\$44.00
The Secret Teaching of Plants by Stephen Harrod Buckner, <i>Man cannot survive without plants, Stephen explores all this & more</i>	\$39.00
Wine from the Sky to Earth by Nicolas Jolly <i>(growing & appreciating bio dynamic wine. All wine growers should read this book)</i>	\$39.00
The Secret Life of Plants by Peter Tompkins & Christopher Bird <i>Learns you about plants like you have never thought of them before, a mind-blowing book.</i>	\$44.00
Building Soils for Better Crops by Fred Magdoff and Harold van Es.	\$50.00
Managing Cover Crops Profitably. <i>Using cover crops to smother weed's, deter pests, and slow erosion. Good information and worth reading.</i>	\$45.00
Foundations of Natural Farming by Harold Willis PHD. <i>Understanding core concepts of ecological agriculture.</i>	\$45.00

Understanding Roots by Robert Kourik. Discover how to make your garden flourish this book uncovers one of the mysteries of the underground plant roots and what they can do for you and your soil Gardner's and farmers alike can benefit from reading this book contains at least 80% more new information including what including what N P K & Ca you can expect to get from a number of different plants	\$ 59.00
Five Acres and Independence. <i>Great book for anyone who dreams at getting back to soil. Methods for all applications of all aspects of a small farm</i>	\$26.00
Quantum Agriculture Biodynamics & Beyond by Hugh Lovel. <i>Basically, in this book Hugh covers all aspects of Biodynamics etc. Great book & should be read</i>	\$48.00
Permaculture Design a step by step guide by Aranaya. <i>In this unique book Aranaya leads you through the design process from beginning to end, using clear explanations, flow charts & diagrams</i>	\$43.00

Paramagnetism of Soil, Water & Insect Frequency

Tuning into Nature by Phillip Callahan (Frequencies that insects, etc. Work on)	\$40.00
Paramagetism by Phillip Callahan. <i>(frequencies in the soil – the secret force of growth) Read & understand how paramagnetism works in farming & the earth</i>	\$33.00
Exploring the Spectrum by Phillip Callahan. <i>(learning how nature resonates to energy)</i>	\$33.00
A Walk In The Sun by Phillip Callahan	\$20.00
Ancient Mysteries Modern Vision by Phillip Callahan <i>(Interesting reading about miracles of nature)</i>	\$33.00
My Search for Traces of God by Phillip Callahan <i>(Discover God's handy work in nature and miracles)</i>	\$33.00
Natures Silent Music by Phillip Callahan <i>(Learn the secrets of the Irish Towers, Tree Roots & Paramagnetism, Insects etc.)</i>	\$40.00
Living Energies by Callum Coats <i>{Great if you want to learn about energies in nature the soil the water and lots more and how it works } a valuable addition to any library</i>	\$52.00
The Water Wizard by Victor Shaugerger, translated and edited by Callum Coates. <i>The extraordinary properties of Natural Water, more energy is encapsulated in every drop of good spring water than an average power station is presently able to produce. You will never look at your farm or the terrain and think the same again, it gives anyone who reads this book a great understanding of just how water works and functions</i>	\$52.00
Enlivened Rock Powders by Harvey Lisel. <i>The practise side of using rock dust as fertilizer, compost enricher & plant growth enhancer</i>	\$44.00

Sea Minerals, Kelp & Seaweed

Sea Energy Agriculture by Maynard Murray MD <i>(crucial importance of hundreds of trace elements)</i>	\$29.00
Seaweed in Agriculture & Horticulture by Stephen Harrod Buckner. <i>Man cannot survive without plants. Stephen explores all this and more</i>	\$39.00
Fertility from the Ocean Deep by Charles Walters <i>(examines the use of sea solids and many other aspects of disease in animals and humans and trace elements)</i>	\$36.00

Food Power from The Sea by Lee Fryer & Dick Simmons (<i>Guide to the use of seaweed & fish based products & organic waste to replace diminishing gas & oil resources</i>).	\$35.00
Sea Weed & Plant Growth by T.L. Senn P.H.D (<i>Covers all aspects of Sea Weed and its effect on plant growth etc, great information</i>)	\$33.00

Garden & Human Health

What Price Vaccination by Simone Delarue <i>This book aims to counter the arrogance and conceit of the immunizers with methods that work with nature</i>	\$23.00
The Calcium Kit by Dr A. F. Beddoe. The secret key to your calcium needs. (utilised the biological ionization principles discovered by Dr Carey Reams. <i>Kit consists of instruction book and litmus paper</i>)	\$49.00
Profiles of Living by Dr A. F. Beddoe (<i>This letter covers the meaning of the Biologic Ionisation Principles</i>)	\$20.00
Choose Life or Death by Carey A Reams with Cliff Dudley (<i>a fascinating read on the life of Carey Reams & his Agriculture work etc</i>)	\$35.00
Chelation Can Cure by E.W. McDonagh	\$30.00
Sea Salts Hidden Power by Jacques de Langre PhD*	\$29.00
Root Cellaring	\$48.00
Your Body's Many Cries for Water by F Batmangfields, MD. (<i>you are not sick, you are thirsty, don't cure thirst with medications</i>)	N/A
How can I use herbs in my daily life by Isabel Shepard (<i>over 500 herbs, spices & edible plants. An Australian practical guide to growing, with culinary medicinal uses.</i>)	\$45.00
How can I grow & use Sprouts as living food by Isabel Shepard (<i>Covering 100 kinds of sprouting seed, the best methods of sprouting nutritional & medicinal benefits. How to use sprouts in your daily life, with practical & simple recipes</i>)	\$35.00
Roses Love Garlic by Louise Riotte. <i>Companion planting and other secrets of flowers.</i>	\$35.00
Carrots Love Tomatoes by Louise Riotte , contains hundreds of interesting facts & is entertaining as well as educational	\$42.00
World Record Tomatoes*	\$36.00
Pasture Perfect by Jo Robinson (<i>why eating grass fed meat & eggs is better</i>)	\$48.00
Water, the Ultimate Cure	\$20.00
Hydrogen Peroxide Medical Miracle	\$35.00
Wild Fermentation by Sandor Ellix Katz, forward by Sally Fallon. <i>This book is for anyone who is really interested in their health, good food & world food traditions. Much of which has been forgotten, lots & lots of recipes.</i>	\$45.00
The Real Cause of Heart Disease is not Cholesterol by Paul A Stitt <i>can be averted not with drugs, not with surgery – with knowledge</i>	\$48.00
Moon Calendar. <i>This easy to use timeless guide with its dial wheel to simply dial up Moon date etc. Never needs to be replaced it is timeless year in and year out. Plus, has some great tips on the back of it, even tells you when to go fishing. A must for the person who doesn't want to be buying a new calendar every year.</i>	\$12.00
Companion Planting Chart. <i>An excellent addition to use with the Moon Calendar, or on its own. Also has some excellent tips on the back, organic sprays etc.</i>	\$6.00

All prices include GST.

Effective from December 2018 E. & O.E.

Trace Elements & Other Essential Elements by Dr. David L. Watts <i>This book talks about clinical application of tissue mineral analysis & the interactions between the elements and what so called diseases are often linked to Particular mineral deficiencies.</i>	\$39.00
The MYTHS of Safe Pesticides by Andre Leu. <i>This book highlights how the chemicals have failed & also been detrimental to ourselves, our world & the environment. A MUST READ for those who genuinely care.</i>	\$28.00
Ancient Einkorn, Today's Staff of Life by D. Gary Young. <i>Hybrid Grains, GMO's and Chemicals, Truth or Consequences. This is a well researched book along with the Author's extensive experience in life and human health, a must read for everyone. Explores the reason for much of our disease & ill health problems today</i>	P.O.A.
Altered Genes Twisted Truth by Steven M Druker. <i>One of the most important books of the last 50 years, everyone should read it. How the Venture To Genetically Engineer Our Food Has Subverted Science, Corrupted Government and systematically deceived us, the public. 511 pages</i>	\$39.50
Amishman's Handy Guide to Vitamins, Minerals and Food Supplements by Dr. Richard Olree. <i>This book is a convenient & valuable reference book (resource) for every home. It is written in common ordinary language so that it is easy to understand, has explanations for all vitamins, descriptions of minerals & how they affect human health, also information on herbs. A4 size and 839 pages, this is a book that should be in every home.</i>	\$150.00
Living by The Season by Lesa Bell. <i>This book is about living from and using what you have growing in the different seasons, including lots of delicious recipe's. Covers many other aspects of living, including livestock, bees, honey and much more. Set in the Mary Valley of Qld, most of it can be applied anywhere, also extremely valuable for educating yourself and children.</i>	\$20.00
The Weed Forages Handbook by Adam Grub & Annie Raser-Roland. <i>This is a guide to using & eating the weeds that we so often hate & despise, they are a source of nutrition & health benefits for us. Things most of us hate and would never use are good for us to eat and high in all sorts of things, Antioxidants etc.</i>	\$22.00

Personal Improvement

Leadership and Self Deception by The Arbinger Institute. <i>This book is about learning to operate with other people and changing lives for the better. Businesses, family etc.</i>	\$39.00
---	---------

Composting Worms & Biology

Compost Tea Brewing Manual by Elain Ingham	\$58.00
Secrets to Great Soil by Elizabeth P Stell <i>(a grower's guide to composting, mulching & creating healthy soil for your garden & lawn)</i>	\$42.00
Handbook of Microbial Bio Fertilisers, by M. K. Rai <i>How to use bacteria and fungi as an alternative to chemical fertilisers.</i>	N/A
Fletcher Simms Compost by Charles Walters <i>(interesting reading)</i>	\$33.00
Rodale Book of Composting <i>(excellent information for the farmer or gardener)</i>	\$48.00
Secret Life of Composting by Malcolm Beck	\$28.00
Lessons in Nature by Malcolm Beck. <i>(50 years of organic advice from Southwest's foremost composter, gardener & farmer)</i>	\$44.00

Teaming with microbes. A gardener's guide to the Soil Food Web by Jeff Lowenfels & Wayne Lewis. <i>Forward by Elaine Ingham. Hard cover</i>	\$46.00
Soil Biology Primer (<i>great to learn about life in the soil, in colour, a must have</i>)	\$45.00
Nature Farming & Microbial Application by Hui-Lian Xu, James T Parr, Hiroshi Uremura	N/A
Worms Eat My Garbage by Mary Appleton	\$28.00
On Farm Composting Handbook by N.R.A.E.S. (<i>gives lots of facts, figures & info on methods for different types of composting</i>)	\$86.00
Harnessing The Earth Worm by Thomas J Barrett (<i>Letting earth worms work for you to build & condition your soil for better plants & richer crops</i>)	\$29.00
Recycle with Earth Worms by Shelley C Grossman & Toby Weitzel (<i>The red wiggler connection, a great book for for anyone interested in worm composting etc.</i>)	\$28.00
Farmers Earth Worm Handbook. <i>Everything you always wanted to know about managing earth worms in your garden or farm.</i>	\$29.00
Raising Earth Worms for Profit by Earl B. Shields. <i>Earth worms for soil improvement, earth worms for breeding stock & earth worms for bait.</i>	\$28.00
Biological Transmutations by Louis Kervran	\$42.00
Colour Handbook of Biological Control in Plant Protection by Neil Helyer, Kevin Brown & Nigel D Cattlin (<i>designed to help the reader recognise and anticipate specific problems and then resolve them, using natural enemies of pests, insects, mites and disease. Full of fantastic colour photos throughout the book</i>)	\$40.00
Field Guide to On Farm Composting by NRAES-114. <i>Great info for people starting out and the professional, also a great companion to on farm composting</i>	\$48.00
Earth Plant Compost by William F Brinton. <i>A great little book examines composting in field and garden, very useful for the beginner.</i>	\$39.00
Organic Soil Conditioning by William R Jackson Phd. <i>Humic, fubic and microbial balance through documented research from universities around the world, explore natures natural</i>	\$270.00
Life In the Soil by James B. Wardi. <i>An excellent book to learn about life in and on the soil. Covers everything from simple algae and all other biology right through to small mammals. For the farmer and gardener. Many pictures throughout the book.</i>	\$58.00
Mycorrhizae Planet by Michael Phillips, <i>talks about the role of mycorrhizal fungi and its role in the soil etc in laymans terms 244 pages hard cover</i>	\$56.00
Mycelium Running by Paul Stamets, subtitled <i>How Mushrooms Can Help Save The World. Growing mushrooms might be the best thing we could do to help save our polluted world, enzymes and acids in the fine filaments break down many pollutants, plant & animal debris</i>	\$80.00

Animals & Animal Health

Natural Farming by Pat Coleby (<i>A practical guide to natural farming an Australian book with lots of info, excellent, covers all aspects.</i>)	\$43.00
Natural Horse Care by Pat Coleby	\$34.00
Natural Cattle Care by Pat Coleby	\$34.00
Natural Goat Care by Pat Coleby	\$39.00
Natural Sheep Care by Pat Coleby	\$39.00

Organic Livestock Handbook. Anne Macey, Editor. <i>A practical guide book assembled from the experience of livestock producers across north America explains principles of organic livestock husbandry.</i>	\$45.00
Dung Beetles the Greatest Invention & A Cowman's Profits by Charles Walters. <i>Take a journey through the world of Dung Beetles & gain an acquaintance with several main species.</i>	\$36.00
Holistic Management Handbook by Jody Butterfield, Sam Bingham & Allan Savoury. <i>This book is essential for anyone involved in land management and stewardship, indispensable guide for making better decisions etc.</i>	\$54.00
Grassfed to Finish by Allan Savoury & Jody Butterfield. <i>A production guide to Gourmet Grass-Fed Beef set in Argentina, Ireland & New Zealand. However, the principle basically applies everywhere, well worth the read if you're interested in producing top quality Gourmet Beef.</i>	\$65.00
Reproduction and Animal Health by Charles Walters <i>(How to select, breed and manage a herd for health and performance on grass)</i>	\$39.00
Alternative Treatments for Ruminant Animals by Paul Dettloff D.V.M. <i>Safe natural veterinary care for Cattle, Sheep & Goats</i>	\$49.00
A Holistic Vet's Prescription for a healthy Herd. A guide to livestock nutrition, free choice minerals and holistic cattle care. By Richard J. Holliday, DVM & Jim Helfter	\$40.00
The Vision Tender. The Keys to Livestock Mastery <i>(learn how to recognise quality genetic indications for all to use, both dairy and beef, covers all aspects of breeding, pasture management, minerals, cutting & cooking, classic meat, and many other aspects of the dairy & beef cattle industry – definitely a book for those who think for themselves)</i>	\$100.0
Raising Animals by the Moon by Lousie Riotti. <i>Practical advice on breeding, birthing and raising animals in harmony with nature</i>	\$59.00
HERDSMANSHIP by Newman Turner. <i>Explains that Live stock Illness is a result of a bad farming practice, Herd Health begins with biodiverse pastures forages herbs etc excellent book</i>	\$25.00
Herd Bull Fertility by James E Drayson. <i>Offers individual information necessary to confidently determine whether a Sire is fertile or sub fertile or sterile. Author 35 years of extensive research in this area 15,537 bulls of all ages & 19 different breeds were studied contains 69 photographs & 32 illustrations & Comprehensive data chart, great book for the serious cattleman.</i>	\$38.00
